

New 5" Indoor Unit for AVE 2-Wire Video Intercom

A stylish solution with modern design and high-resolution display.

Also perfect for small spaces due to compact dimensions.

The new VI2F-PIT5B video intercom unit inherits the ease of installation and versatility of the VI2F-PIT4B monitor, combining these features with a more modern and attractive appearance. It represents another step forward for **AVE's V44-EASY 2-wire system**.

The **5" high-definition display** (800x480 pixels) delivers exceptional image clarity, allowing you to instantly identify who is outside and manage access to your home with a few simple gestures. With its white color, modern lines, compact dimensions, and a slim thickness of just 25 mm, it blends harmoniously into any environment. Perfect for installations on walls with limited space, it is a discreet and versatile choice. The **white LED backlit touch buttons** add elegance, making it a truly integrated design element.

The **VI2F-PIT5B is suitable for various applications** and is the ideal choice for:

- Installations in small residential spaces;
- Installations in apartment buildings;
- Installations in commercial spaces such as shops and offices;
- Installations in locations with limited available space.

It can be installed with all AVE 2-wire system outdoor units, from single-call wall-mounted outdoor units to 7" LCD touchscreen. For single-family installations, no configuration is required: devices are factory pre-configured for **plug-and-play installation**.

Key Technical Features:

- 5" color LCD
- Compact dimensions (W x H x D): 134 x 155 x 25 mm
- Touch buttons for video intercom functions
- Backlit buttons for optimal use in low-light environments
- Management of intercom calls
- Mute ringtone function
- Capability to install up to 4 devices in a single apartment

The VI2F-PIT5B is part of the AVE V44 EASY 2-wire video intercom system, which offers a complete range designed to meet all market demands. This includes flush-mounted and wall-mounted **outdoor units** suitable for installations ranging from single-family homes to apartment buildings. The **indoor units** in the AVE 2-wire range include everything from simple intercom handsets to 7" Wi-Fi monitors, that allow users to remotely answer calls via the AVE VIDEO V44 app or manage smart home, advanced home automation, and security systems from AVE's advanced product lines.

AVE video intercom systems: the perfect solution for all your needs.
